B. R. T. RELEASED.

Suit of Johanna Wright Dismissed as

to Them On Their Paying Money. to Them On Their Paying acory.

The Brotherhood of Railway Trainmen was yesterday released from all obligation in councetion with the insurance case brought against the order, together with other defendants by Mrs. Johanna Wright. The order was ready at all times to pay the money—\$1.000—and yesterday secured an order permitting it to pay the same into the court and let Mrs. Wright litigate with Thomas Wright and the other claimants.

and at low cates. Nor have stock operations caused any appearance of pressure. The financing of new corporations has passed thus far with less trouble than had been feared, though the completing of some organizations is hindered or has failed.

The usual time for financial troubles in the spring has passed, and the usual alarm about the crops has done its work, and still industries are undisturbed. The one hindrance in stock speculation is doubt about the crops, but better unofficial reports have supported inferences warranted by the heavy receipts from the firms in the west and south. Farmers do not send wheat or cotton to market in large quantities when crops anywhere near them are extensively spoiled. When receipts have been 7,561,343 bushels, against 5,705,643 hast year in three weeks of April, and the improvement since April 1 is worthy of notice. Exports have failen off, amounting from both coasts to only \$7,74,774 bushels, flour included, in three weeks, against 10,318,122 last year, and the price closes but half a cent higher than last week. Nothing but industrial depression is left to excite apprehension, but the industries are meeting something very unlike depression. The kind of "lul" that appears in the iron market rejoices the manufacturers, because they are crowded far ahead with orders. It means, very true, that many buyers do not want to contract far ahead at the high prices now asked, and also that many orders have been for a time withdrawn. It also means that manafacturers who are so crowded that firth new business can be taken, are anxious to get nearer the end of their engagements before fixing prices for the future. Almost anbing is done in pigiron, though southern is sold largely at Chicago and Pittsburg. Heavy demands for burs to be used in car and other werks cannot be met at Chicago, and Pittsburg and content of their engagements before fixing prices for the future.
